## European CleanTech I SE

### Management Report by the Management Board

The Directors present their report and condensed interim financial statements for the three months period ending 31 March 2012.

European CleanTech I SE (the “Company”) is a *société européenne* (SE) incorporated under the laws of Luxembourg, established for the purpose of acquiring one or more operating businesses with principal business operations in member states of the European Economic Area (EEA) through a merger, share exchange, share purchase, asset acquisition, reorganization or similar transaction or group of such transactions (a “Business Combination”).

The Company went public on October 20, 2010, when it raised EUR 115 000 000 through an IPO of 11 500 000 Units at a Unit price of EUR 10. Each Unit consists of one redeemable Class A share of the Company, with no nominal value (a “Public Share”), and one Class A warrant with a stated exercise price of EUR 11.50 (a “Public Warrant”). The Public Warrants may be exercised, at the Company’s option, either in cash or on a “cashless basis” and will become exercisable on the later of (i) the closing due date of the Business Combination and (ii) one year after the date on which trading in the Public Shares and Public Warrants on the Frankfurt Stock Exchange commences.

The Public Shares and Public Warrants are listed on the Frankfurt Stock Exchange under the ISIN LU0538936351 and LU0538952044, respectively.

The Company is currently seeking to consummate a Business Combination and is focused on the “clean technology” sector, in particular in the areas of energy substitution (the substitution of fossil energy by renewable energy). The Company has until 19 October 2012 to consummate a Business Combination. Otherwise, the Management Board will propose to the shareholders to resolve upon the liquidation of the Company, in the course of which the Company will distribute substantially all of its assets to its public shareholders.

The Management Board is confident that a Business Combination will be completed before 19 October 2012 as the Company is currently in discussions with likely Business Combination targets, which have indicated valuation expectations which the Management Board considers being compatible with current capital market conditions.

The Management Board has identified many companies since its IPO in 2010 that potentially fulfill the Company’s search criteria for a Business Combination target. The Company has been discussing and investigating several Business Combination opportunities in detail with selected target companies during 2011. Based on ongoing discussions, the Management Board is confident to consummate a Business Combination before 19 October 2012. A Business Combination with European CleanTech I SE will offer a target company the opportunity to access new financing sources and become publically traded without undertaking a traditional IPO.

The Management Board believes that the Company represents an attractive and innovative financing alternative for operating cleantech businesses in an IPO market and environment that has become increasingly difficult for many mid-sized companies.

At the balance sheet date, the share capital of the Company was EUR 345 000, divided into 11 500 000 Public Shares (representing 80 % of the total share capital), and the unlisted class B shares, divided into 958 333 Class B1 shares (representing c. 6.66 % of the total share capital), 958 333 Class B2 shares (representing c. 6.66 % of the total share capital) and 958 334 Class B3 shares (representing c. 6.68 % of the total share capital) (the class B shares, together, are also referred to as the “Sponsor Shares”).

Holders of the Public Shares have the right to vote for the election of the members of the supervisory

board of the Company and on all other matters requiring shareholder action. Public Shares convey one vote per Share and entitle the holder thereof to receive dividends, if any, as may be declared from time to time by the Management Board of the Company and decided by the general shareholders' meeting in its discretion out of funds legally available therefore. Upon the liquidation of the Company, Public Shares will be entitled to receive pro rata all or substantially all assets remaining available for distribution to Public Shareholders after payment of all liabilities. The Sponsor Shares bear the same rights as the Public Shares except that in certain circumstances, including the approval of the initial Business Combination, the general shareholders' meeting can only adopt a resolution with a certain majority of the votes validly cast by Public Shareholders, and except that after a Business Combination, Sponsor Shares are not entitled to receive any distribution by the Company in excess of EUR 0.01 per Share, and liquidation rights of Sponsor Shares are limited to EUR 0.024 per Sponsor Share. Finally the Sponsor Shares are automatically converted into Public Shares, at a ratio of one Public Share for each Sponsor Share (subject to customary anti-dilution provisions) as follows:

- one third of the Sponsor Shares will be automatically converted into Public Shares upon consummation of a Business Combination.
- one third of the Sponsor Shares will be automatically converted into Public Shares if the Daily VWAP on any 20 out of any 30 consecutive trading days following consummation of a Business Combination equals or exceeds EUR 11.00.
- one third of the Sponsor Shares will be automatically converted into Public Shares if the Daily VWAP on any 20 out of any 30 consecutive trading days following consummation of a Business Combination equals or exceeds EUR 12.00.

The "Daily VWAP" means, for any trading day, the per Public Share volume-weighted average price on Xetra® for such Trading Day as reported on Bloomberg (or if such volume weighted average price is not available from Bloomberg, the volume weighted average share price of the Public Shares on such trading day determined by an internationally recognized investment bank selected by the Company).

Subject to certain exemptions, each of Dr. Helmut Vorndran, Willi Mannheims and Sven-Roger von Schilling (together, the "Sponsors"), Prof. Dr. Peter Woditsch (the "Additional Investor") and European CleanTech I Holding S.à r.l. have agreed not to sell or otherwise transfer, without the prior consent of the underwriting banks in the IPO, its or his Sponsor Shares or its or his portion of the Public Shares that may be issued upon conversion of the Sponsor Shares for a period of 12 months following the consummation of a Business Combination.

Promptly upon the IPO, the Company transferred all of the proceeds received from the sale of Public Shares in connection with the IPO as well as part of the proceeds received from the private placement of the Sponsor Warrants immediately prior to the IPO into an escrow account maintained with Deutsche Bank, London branch, and held through an Irish branch of the Company. Funds in the escrow account may only be used in connection with a Business Combination. If the Company does not consummate a Business Combination by the relevant deadline, the remaining amounts in the escrow account will be distributed by the Company to the holders of Public Shares in the liquidation process.

#### **2. BASIS OF PREPARATION (continued)**

The estimates and underlying assumptions are based on historical experience and various other factors that are deemed to be reasonable based on knowledge available at that time. Actual results may deviate from such estimates. Such estimates and underlying assumptions are reviewed on an ongoing base and revisions to these are recognized in the period in which the estimates are revised and in any future periods affected.

In preparing these condensed interim financial statements, areas of estimation, uncertainty and critical judgements in applying accounting policies were the same as those that applied to the financial statements for the year ended 31 December 2011 and are described in Note 2 (e) of those financial statements.
